

Infraciv, a subsidiary of the Infras Group in Ivory Coast, was established in May 2023. Within just three years, the company has already built a strong portfolio of references across road infrastructure, urban and rail transport, water and sanitation, as well as building construction. The subsidiary is experiencing rapid growth and aims to become a leading player in infrastructure engineering in Côte d'Ivoire.

As part of the Infras Group's expansion across Africa, **Infraciv** positions itself as a trusted partner, offering comprehensive services that cover all studies, expertise, supervision missions, technical assistance, and training in consulting, engineering, and the operation of projects related to mobility, infrastructure, construction, transport, civil engineering, and building. The company stands out by supporting its clients through an approach that combines high-level expertise with a strong and lasting commitment.

OUR EXPERTISE

Project Management Assistance

- Project planning and monitoring
- Institutional support and advisory
- Procurement and contract award
- Training and capacity building

Engineering Studies

- Feasibility studies
- Preliminary and detailed design studies (preliminary design / detailed design)
- Specialized studies (geotechnical, hydraulic, topographic, traffic, environmental, etc.)
- Tender document preparation

Works Supervision

- Works management and supervision
- Quality and quantity control
- Financial and contractual monitoring
- Handover

OUR EXPERTISE AREAS

ROADS

- Roads, highways and urban roads
- Bridges and engineering structures
- Railways and urban transit systems
- Airport infrastructure
- Port infrastructure
- Urban mobility

RAIL & URBAN MOBILITY

- Transport planning, modelling
- Feasibility studies and urban integration
- Project management, integration
- Construction supervision
- Civil works design and engineering

BUILDINGS

- Architectural studies
- Administrative, residential, commercial and industrial buildings
- Educational facilities
- Healthcare facilities
- Sports facilities

ENERGY

- Distribution networks
- Transmission networks
- Hydropower plants
- Renewable energy
- Rural electrification

WATER & SANITATION

- Drinking water supply systems
- Wastewater treatment
- Hydraulic and drainage systems
- Reservoirs and water towers
- Irrigation systems

ENVIRONMENT

- Environmental and Social Impact Assessments (ESIA)
- Climate change adaptation
- Air, water and soil quality studies
- Resettlement Action Plans (RAP)
- Coastal and shoreline protection

OUR ORGANIZATION

VEHICLE FLEET

- Light vehicles
- Four-wheel-drive vehicles
- Motorcycles and scooters

HUMAN RESOURCES

- Multidisciplinary engineers and specialists
- Technical and environmental experts
- Economists and statisticians
- Support and administrative staff

IT RESOURCES

- Advanced AI proficiency
- Desktop & laptop fleet
- Professional software: CAD, GIS, OA, cost estimation and project management tools
- Printing and scanning equipment
- Secure networks and data backup systems

TECHNICAL EQUIPMENT

- Surveying and geotechnical equipment provided by local subcontractors

“

INFRACIV positions itself as a pan-African multidisciplinary engineering consultancy committed to building the Africa of tomorrow. Together, we will address the challenges facing the continent, drawing strength from our diversity and our shared commitment.

Serge Amanlando

PROJECTS HIGHLIGHT
